HNJ.Restoration

In collaboration with Holy Name of Jesus Church Administration, the Finance Committee, Parish Council and the Buildings Committee, our Parish Congregation willingly and joyfully embarked on an exciting initiative called:

WELCOME HOME TO YOUR RESTORED HOLY NAME OF JESUS CHURCH!

The project produced a complete Gothic Revival restoration of Holy Name Church back to it's pre-1981 architecture. The centerpiece to this effort is the addition of a James Renwick Jr 1878 three-set Reredos (Altar). Renwick is world renowned for building St. Patrick's Cathedral in NYC and the Smithsonian Institute in Washington Mall.
